## Datafarm Vue v1.1 Certified Hotfix 1 Release Notes

This document describes a hotfix provided by Liquent to fix one or more issues found with *Datafarm VUE*<sup>®</sup> version 1.1. This fix has undergone Quality Control regression testing, certifying the system works as expected. As a Certified Hotfix, this change will not create a new code branch, but will be identified by the updated build number on the existing codeline, not a new release number.

### Contacting us

Technical support is available in North America, Europe, and Japan Monday through Friday (excluding regional holidays) between 0900 (9:00 A.M.) and 1700 (5:00 P.M.) local time.

## Datafarm Vue v1.1 Certified Hotfix 1 details

This is an interim fix to issues that have been reported to Liquent. It is not a general release of VUE.

You can apply this hotfix to VUE 1.1.

The fix is supplied as a ZIP file containing the following components that comprise the cumulative package set:

Component	Version	Customizable	Last modified build
Datafarm VUE.exe	1.1.0.023	No	1.1
MasterXMLGenerator.dll	1.1.0.023	No	1.1
ch-region-1.0.xsl	N/A	N/A	N/A
ch-region-1.0.1.xsl	N/A	N/A	N/A
ch-region-1.1.xsl	N/A	N/A	N/A
dtd-mappings.xml	N/A	N/A	N/A
optional-sections.xml	N/A	N/A	N/A
search-attributelist.xml	N/A	N/A	N/A
section-order.xml	N/A	N/A	N/A
translation.xml	N/A	N/A	N/A

## New with this hotfix

Datafarm Vue v1.1 Certified Hot Fix 1 includes support for the following:

- VUE now supports the Swissmedic M1 v1.1 DTD. [9901]
- VUE now supports the Study Data Specification 1.5.1. [9997]

## Issues resolved by this hotfix

Datafarm Vue v1.1 Certified Hot Fix 1 resolves the following issue(s):

Issue	Description
9790	If an STF contained a file that no longer existed in the XML, then VUE would not load the submission for viewing.
10079	Users were unable to log on to VUE using a non-English Citrix machine.

## Hardware and software checklist (minimum system requirements)

<b>System Processor</b>	Pentium® 1GHz or faster
<b>System Memory</b>	256MB RAM (512MB suggested but not required)
<b>Free Disk Space</b>	50MB
<b>Operating System</b>	<ul style="list-style-type: none"><li>• Microsoft® Windows XP Professional SP2/</li><li>• Vista SP2 Business Edition1/Windows 7</li></ul>
<b>Other Software/Components</b>	<ul style="list-style-type: none"><li>• Microsoft® .NET Framework 2.0 or later</li><li>• Microsoft® Internet Explorer 6.0 or later</li><li>• Mozilla Firefox 3.0 or later<sup>1</sup></li><li>• Adobe® Acrobat® or Acrobat® Reader 6.0 or later</li><li>• Microsoft® Word 2000 or later<sup>2</sup></li><li>• SAS Viewer<sup>2</sup> (free download from <a href="http://www.sas.com">www.sas.com</a>)</li><li>• Microsoft® Excel 2000 or later<sup>2</sup></li></ul>

<sup>1</sup> Supported but not certified.

<sup>2</sup> Required only to view Microsoft Word, Excel, or SAS documents in submissions.

## Installing this hotfix: upgrade or new installation

You must use the following procedure to install this hotfix. This hotfix should be installed on each VUE client in your environment.

Copy all files that are being replaced to another location, such as a shared network drive, for backup purposes.

### WARNING

For any customizable files included with this hotfix, perform a "diff" procedure to determine whether changes were made that you need to carry forward to the new files.

## Hot fix files only (*upgrade installation procedure*)

1. In the <install drive>\Program Files\DATAFARM\Datafarm VUE folder, rename the existing **Datafarm VUE.exe**.
2. Copy the **Datafarm VUE.exe** file provided with this hot fix release to the application path <install drive>\Program Files\DATAFARM\Datafarm VUE folder.
3. Copy the file **MasterXMLGenerator.dll** file provided with this hot fix release to the path <install drive>\Program Files\DATAFARM\Datafarm VUE\bin folder
4. Confirm the **Datafarm VUE.exe** and **MasterXMLGenerator.dll** you copied is the correct version by verifying the following:

- Right-click on the **Datafarm VUE.exe / MasterXMLGenerator.dll** file and select **Properties**, then select the **Version** tab.
  - In Other version information, verify that the value in the File Version field is 1.1.0.023
5. Copy the following files provided with this hot fix release to the application path <install drive> \Program Files\DATAFARM\Datafarm VUE\bin\config\xsl folder.
    - ch-region-1.0.xsl
    - ch-region-1.0.1.xsl
    - ch-region-1.1.xsl
  6. Copy the following files provided with this hot fix release to the application path <install drive> \Program Files\DATAFARM\Datafarm VUE\bin\config folder.
    - dtd-mappings.xml
    - optional-sections.xml
    - search-attributelist.xml
    - section-order.xml
    - translation.xml

## New installation details

1. Double-click on the **Datafarm VUE.exe** file.
2. Select the required language for the installation.
3. Follow the on-screen instructions in the VUE Setup screens, clicking Next whenever you are ready to proceed to the next step. When the process is complete, a message displays indicating that VUE is successfully installed.

## Registration details (*not applicable for existing customers*)

1. Double-click on the **Datafarm VUE** icon on the desktop or select **Datafarm VUE** from **Start | Programs | Datafarm eCTD Apps**. The Product Registration window appears.
2. Click the **Register** button and complete the required information in the License Registration window.
3. Select the **License Type** and accept the License agreement.
4. If you have Microsoft Outlook, select the **Email** button and send the License request to *support@liquent.com*.

### NOTE

Refer to the Help system for additional methods that do not use Microsoft Outlook.

5. Close the License Registration window.

## Activation details (*not applicable for existing customers*)

Liquent will send you the license.xml file.

After receiving the license.xml, extract the file to your desktop or to a folder on your local drive and complete the activation using the following steps.

1. Double-click on the *Datafarm VUE* icon from the desktop or select *Datafarm VUE* from Start > Programs > Datafarm eCTD Apps. Product Registration screen appears.
2. Click on the Activate button and open the License.xml received from technical support.

The hotfix is now installed and ready to use, with the new functionality active.

## Known issues

The following are known issue(s):

Issue	Description
8270	For Japan (JP) submissions, the appended document was not showing under parent node in the sequential view for m2-m5.
9170	An unknown file type icon is displayed in the current, cumulative and sequence views for .csv, .css, and .xsd files.
9183	A search that includes a filter on galenic form will display results for all galenic forms.
9318	When the Internet Explorer (IE) version is "8.0.6001.18702", external links in a PDF document will not open.
9319	The VUE License tool doesn't create a valid license on Windows 2000.
