QUMAS and Datafarm Integration for end-to-end Electronic Submissions

JERSEY CITY, NJ and Marlborough, MA– April 7, 2009 – QUMAS, a leading provider of Regulatory Compliance Solutions and Datafarm, a leading provider of high performance electronic Regulatory Submissions Solutions, today announced an integration between QUMAS DocCompliance™ and Datafarm S-Cubed®, providing customers with an end to end solution for the creation and management of Electronic Common Technical Documents (eCTD), Non-eCTD Electronic Submissions and Paper Submissions to global regulatory agencies.

George Waidell, Director of Product Strategy at Datafarm said, “Datafarm’s expertise is in the compilation and publishing of eSubmissions to global regulatory agencies. QUMAS DocCompliance plays a vital role in ensuring that customers effectively create and manage the submission source documents. When integrated with S-Cubed, clients benefit from an end to end, best in class regulatory submissions solution.”

QUMAS and Datafarm clients can effectively manage the entire lifecycle of Electronic Submissions seamlessly by combining documents from DocCompliance in S-Cubed for submission assembly and validation, ensuring compliance with the global regulatory agencies guidelines and specifications for compiling and publishing submissions.

“The QUMAS integration with Datafarm will enable our clients to get faster regulatory approval with accurate submissions, which can also be reused for submissions to many different regulatory bodies,” said Caoimhe Kiely, VP Marketing at QUMAS. “This is the key to a successful partnership, enabling our clients to get their products to market faster.”

About QUMAS
